

## COVID-19 Preparedness Plan

### FCA MN Golf Camp 2021

For the safety and peace of all who attend FCA Golf Camp, please know that we commit to doing our best to develop and will implement a COVID-19 Preparedness Plan following local, state, national and FCA guidelines and policies.

The best way to prevent illness is to avoid exposure to this virus. The masking, physical distancing, and other steps work together to help reduce the risk of spreading COVID-19.

We can all take these actions to protect our families, others, and ourselves:

- **Stay home if sick...** anyone with symptoms, or has tested positive without symptoms, or has been exposed to anyone who has tested positive and is in their quarantine period, should not attend camp.

- **Check-in and Screening Procedures**

At registration, FCA representatives will follow this screening procedure:

1. Ask if campers are showing any COVID symptoms, "are you experiencing fever, chills, shortness of breath, headache, loss of taste or smell?"
2. Ask campers if they been in close contact with a confirmed case of COVID-19 within 72 hours of the camp ("within 6 feet of an infected person for a cumulative total of 15 minutes or more over a 24-hour period" even while wearing a mask?)
3. Use an infrared thermometer to check their temperature. We also plan to take temperatures of each camper and adult each morning while at camp.

- **During Camp:**

Campers or adults that are experiencing symptoms and/or have an elevated temperature during camp will be immediately separated from others. Parents will be contacted and likely asked to make arrangements to come and pick up their child as soon as possible. We will contact parents of others who may have been exposed, and together decide on steps to take, including the possibility of leaving camp as well.

- **Social Distancing - stay at least 6 feet apart from other people...**we will be intentional about monitoring flow of campers and adults as much as possible, starting with registration and including transportation, meals, large and small group gatherings and golf. Golf clinicians will be asked to be "hands-free" as they teach/instruct.
- **Wear face coverings...** required in all indoor spaces, including the golf clubhouse, local church for evening programming, hotel, etc. other than eating, sleeping, showering, brushing teeth, etc. We do feel like we can monitor and social distance during golf

clinics and while on the golf course, so face masks will not be required outdoors during those times.

\*\*\*Please be sure to provide your child with plenty of disposable or reusable face masks to use throughout camp.

- **Wash your hands often**...hand sanitizer (60% alcohol) will be available on site.
- Cover your mouth and nose when you cough or sneeze.
- Food will be prepared and served in accordance with applicable rules and regulations.
- There will be a limited number allowed to eat in our reserved area, and we will space campers and adults out as necessary, with no more than six people seated together at any one time.
- **Campers will be assigned to specific “PODS”** - we plan to keep these pods together as much as possible throughout camp; this will include housing, mealtimes, large group gatherings, small group meetings and golf clinics. Golf tournaments/events may be the one time where we will be mixing campers with others outside of their POD, but we will closely monitor and expect social distancing on the golf course.
- **HOUSING OPTIONS...you have a couple options to consider:**
  - Typical camp policy is to room 2-3 people together at the hotel. Campers who come alone will likely be assigned to a room with other campers.
  - Roommate requests will be honored, allowing you to stay with someone already in your “bubble”
  - Allowance will be made for you to choose a single-room option... this will be based on availability, parent permission and willingness to cover the extra expense
